

Germany-Japan Young Scientist meeting on “Dynamic ordering of biomolecular systems for creation of integrated function”

Max Planck Institute for Biophysical Chemistry, Göttingen, Germany
13th-15th September 2017

13th September
poster presentaion in “14th HORIZONS in Molecular Biology”

14th September
Opening session

15th September
Round table discussion

Theme 1 Oscillation as conductor of dynamical ordering of life

Theme 2 New technologies for the observation of dynamical
ordering

Organizing Committee

Pablo Trigo-Mourino

Pillai Vindhya

Max Planck Institute, Germany

Saeko Yanaka

National Institutes for Natural
Sciences, Japan
